### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The rejection made in the previous office action is withdrawn in view of Applicants' amendment and persuasive argument in that the claims of the '248 patent are directed to a lentiviral vector system, while the instant claims are more broadly directed to a viral vector system. In addition, the first nucleotide sequence of claim 1(i) in the '248 patent encodes an anti-sense RNA or a ribozyme, whereas the first nucleotide sequence of claim 1(i) in the current application encodes an external guide sequence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
